PRESENTATION TEMPLATE
TITLE PAGE

LOGO

Speaker, authors, list, *et al.*

- Scientific Institute 1
- Scientific Institute 2
- Scientific Institute 3

LOGO   *LOGO*

How to use the template: global settings

Most of style settings are in Pstyle.sty

- Use keywords and large fonts
- Minimum font size 20 in large auditoriums
- Fonts can set by `\setmainfont{fontname}`
- Colours:

Main green	RGB: 0 85 34
Light green	RGB: 44 160 44
Purple for contrast	RGB: 255 55 0

- Background image:
  ```
  \usebackgroundtemplate{
  \includegraphics[width=\paperwidth, height=\paperheight]
  {./titlefigures/title_back.png}}
  ```

LOGO

- Set a title and subtitle
  ```
  \title{Presentation title}
  \subtitle{Title page}
  ```
- Authors are passed as a list in the command
  ```
  \newcommand{\insertauthorslist}{
  {Speaker}, {authors}, {list}, {too  long} , {third aa} , {45345 aa}}
  ```
  separated by comas and curly brackets surrounding each one. If the number of authors is larger than 3, only first 3 of them will be displayed with others being replaced by *et. al.*
- The same are with affiliations
  ```
  \newcommand{\insertsplitinstitutes}{
  {Scientific Institute 1}, {Scientific Institute 2},
  {Scientific Institute 3}, {Scientific Institute 4}}
  ```
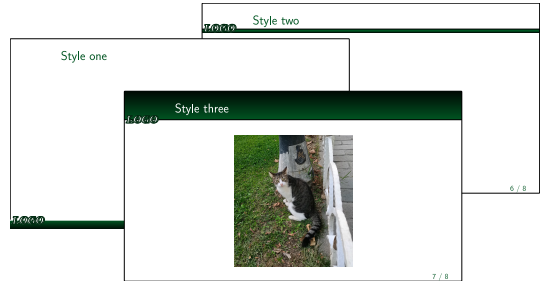

Three styles for meaningful frames triggered by pre-frame commands

- \FrameStyleOne
- \FrameStyleTwo
- \FrameStyleThree

  and

- title page \FirstFrame
- final page \ThankYouFrame

How to use the template: logos

- Background images and logos are in 'titlefigures' folder nested in 'figures' one.
- A logo in footlines and headlines can be set in Pstyle.sty in `\ColoredRectangle` function. Settings of its location are in the function either.
- To display a logo set *flag* variable to 1 as
  `\setvalue{flag/property = 1}`
  Otherwise, if a logo is not required *flag* should be 0 as it set default.
- To change an image logo use command
  `\includegraphics[height=#7]{./titlefigures/logo.png}`
- A title logo look for in `\setbeamertemplate{title page}`, a node with mark *(titlegraphic)*.

How to use the template: logos

- A background image is set in title and final frames as
  `\newcommand{\FirstFrame` or `\ThankYouFrame}{`
  `\usebackgroundtemplate{`
  `\includegraphics[width=\paperwidth,height=\paperheight]`
  `{./titlefigures/title_back_green.png}}}`
- Such a wrapper can be added to any frame.
- Images for the main part of a presentations are recommended to save in 'figures' directory.
